SUA SPONTE
DECISION WITHDRAWING HOLDING
OF ABANDONMENT

This is a decision, *sua sponte*, withdrawing the holding of abandonment of the above-identified application.

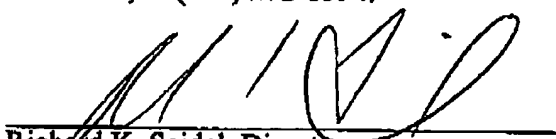

The application was held abandoned for failure to timely file a response to the Office action mailed on May 19, 2003. A Notice of Abandonment was mailed on November 21, 2003.

A review of the written record indicates that a proper response to the Office action was previously filed on November 18, 2003, but not matched with the application prior to the mailing of the Notice of Abandonment. A proper reply under 37 C.F.R. § 1.113 to a final rejection consists of: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 C.F.R. § 1.114.

Since the timely filed amendment places the application in condition for allowance, the abandonment of the application was premature. Therefore, the application was not abandoned in fact. For the above stated reason, the Notice of Abandonment is hereby vacated and the holding of abandonment withdrawn. The application is restored to pending status.

The application file is being forwarded to the examiner for consideration of the response.

Inquiries related to this decision should be directed to Clayton E. LaBalle, Special Program Examiner, at (571) 272-1594.

DETAILED ACTION***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 11, 13 and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Bunin et al. ('803, cited in previous office action).

Bunin et al discloses an optical ferrule (50), a concave portion (58) for confirming confirmation factors such as sorts of an optical fiber (22) held in the ferrule body is formed, the concave portion is formed at a portion other than a flange portion of the ferrule body, an optical connector using the optical ferrule.

Application/Control Number: 09/720,235
Art Unit: 2839

Page 3

Allowable Subject Matter

3. Claims 1-10 are allowed.
4. Claim 12 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

The reason for allowance of the claims is the inclusion of the limitation,

- a) for claim 1, a gate is formed in the concave portion for resin molding and the depth of the concave portion is deeper than the height of a flash which is formed in the concave portion as a result of the resin molding, in combination with other limitations in the claim which is not found in the prior art reference of record.
- b) for claim 12, the concave portion is formed in a flange portion of the ferrule body and a gate for resin molding is disposed in the concave portion, in combination with other limitations in the claim which is not found in the prior art reference of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

6. Applicant's arguments filed on 4/14/2003 have been fully considered but they are not persuasive.

The applicant did not argue the rejection of claim 11.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
